

Freemasonry and Judaism

By JIM PERON

THE HISTORY OF THE WORLD is the history of the occult. The mystery religions with their rites, rituals and priesthoods have long sought to enslave mankind. They have viewed themselves as the "elite" or the "chosen people" and have looked upon the masses as the "profane" and the "unworthy."

From the very beginning of time man has fallen prey to the "hidden mysteries" which these self-ordained priesthoods have proclaimed. Only through the rituals and priesthoods of these various cultic mystery religions may man receive his exaltation and possess the knowledge, if not the place, of a god. In essence these cults repeat the same lie of Lucifer used on Eve in the garden that, "Ye shall be as gods."

Masonry, a Mystery

Freemasonry is perhaps the oldest of the mystery priesthood religions. Though it cannot be physically traced, its spiritual beliefs are as old as man himself. Dr. A. G. Mackey, one of Freemasonry's most authoritative writers, stated, "The truth is that Masonry is undoubtedly a religious institution, which, handed down through a long succession of ages from that ancient priesthood who first taught it. . ."

The rituals of Freemasonry and its priesthood can be traced to Egypt and finally to Babylon. The book *Traditions of Freemasonry* states, "the mysteries throughout the world were the same in

substance, being derived from one source and celebrated in honor of the same deities, though acknowledged under different appellations." The *Lexicon of Freemasonry* says, "In all these various mysteries we find a singular unity of design, clearly indicating a common origin."

In the Book of Revelation, John referred to the one-world religion as "Mystery Babylon." Throughout Scripture the false priesthood cult has been symbolized as Babylon. Alexander Hislop, in his monumental expose, *The Two Babylons*, stated that all the mysteries originated in Babylon under a religious-political system established under Nimrod.

Masonry, the Judaic Connection

Masonry is one of the more prevalent forms of the mystery religion in existence today. There are, of course, many similarities between Masonry and the various other modern day forms of the mystery religions. One of the most obvious connections is that between Masonry and Judaism. Both have the same origin and therefore the same basic philosophy.

When Judah, the southern kingdom of Israel, was taken into captivity by Babylon it found itself adopting the Babylonian religion. The mystery religion was soon incorporated into their own and modern day Zionism-Judaism was born. Because

this same origin Freemasonry and Judaism are completely compatible.

In a well-documented expose of Freemasonry in Germany, (*Destruction of Freemasonry*, Noontide Press, 1977), Gen. Erich Ludendorff gives details on the connection between the German Freemasons and the Order B'nai B'rith (Sons of the Covenant) founded in the United States in 1843.

Gen. Ludendorff (1865-1937), hero of the decisive Battle of Tannenberg in World War I, and author of several other books, points out that the B'nai B'rith is a ruthless representative of the Jewish racial folk-community and the Jewish-capitalistic thought for world-rulership. He gives a description of the various rituals by which an apprentice becomes a Freemason and writes that for the Christian, the ritual follows the Talmud, the Old Testament, and the Jewish Cabala in transforming him into an "artificial Jew."

A. G. Mackey writes concerning Masonry in his *Encyclopedia of Freemasonry* that "Each lodge is and must be a symbol of the Jewish Temple, each master in the chair a representative of the Jewish king, and every Mason a personation of the Jewish workmen."

Masonry is built upon a series of legends and symbols. Many of these are also found in the Jewish Talmud. In his book *Mormonism and Masonry*, Cecil McGaven wrote, "The Jewish Talmud furnishes many illustrations of the Masonic system. Many of the traditions and legends, especially of the higher degrees, are either found in or are corroborated by the Talmud."

Along with the Talmud, the Jewish Cabala was one of the foundations of Freemasonry. British historian Nesta Webster wrote that, "modern Craft Masonry is largely founded on the Cabala." The Archbishop of Port Louis bluntly stated, "The doctrines of Freemasonry are those of the Jewish Cabala. . ."

The New World Order

The philosophy of the priesthood cults always culminates in the new world

order—the one-world government of Anti-Christ. Immediately after the First World War the League of Nations was brought into existence to bring about this great universal republic. The League of Nations according to Zionist leader Nahum Sokolow was "a Jewish idea." British historian Webster stated that the League "might with more certainty be described as an essentially Masonic conception. . ." This author contends that because of the common origin of Judaism and Masonry in the ancient mystery religions that the League was both Judaic and Masonic.

Jesse Sampter, an ardent Zionist and author of *Guide to Zionism*, claimed that, "the League of Nations is an old Jewish idea" and that the League had "grown in large measure out of the claims of Zionists." One promoter of the League, Lord Robert Cecil who was head of the League of Nations Union predicted that the League would have its eventual seat in Jerusalem. In more recent times the Zionist leader, David Ben-Gurion said that the "United Nations of the World" and the World Court will be run from Jerusalem and that Israel will be the rulers of the new world order. Such beliefs as these are found in Freemasonry time after time.

That Masonry supports the concept of a universal state through the league or its modern day successor, the United Nations, is obvious. Masonic groups in France in 1923 wrote that the League, "will be able to find support in the Masonic groups all over the world." These same Masons later called for "the formation of the United States of Europe, or rather a Federation of the World."

The Jewish writer Emil Ludwig wrote that "when the United States of Europe becomes a reality, people will call Woodrow Wilson its founder." Wilson was the mover behind the League and its world government scheme. Wilson was also a Freemason. The fact is that both Judaism and Masonry look for the establishment of the new world order—a world government under their control.

Revolutions and Judaic-Masonry

The history of the world revolutionary movement has a heavy concentration of Masons and Jews in it. This is an undeniable fact, one that must be faced and answered. L. dePoncin in *The Secret Powers Behind Revolution* wrote, "Even the purpose in itself of Freemasonry, namely the destruction of Christian civilization, reveals to us the Jew, for only the Jew can draw advantage, and the Jew alone is inspired by a sufficiently violent hatred towards Christianity, to create such an organization."

Freemasonry has a history of attracting revolutionaries to its bosom. When Weishaupt created his subversive Order of Illuminati he first sought to infiltrate the Masonic lodges of Europe. It was the Illuminated-Judaic Masons of France that created the French Revolution. In *Pawns in the Game*, Col. William Guy Carr stated, "This the Jewish Illuminati . . . was introduced into Continental Freemasonry by Weishaupt under the guise of Lodges of the Grand Orient. The Jewish Illuminati next organized a secret revolutionary underground within the lodges. Thus the revolutionary underground directors were established throughout France."

In the *Lexicon of Freemasonry* we find Masons admitting that, "Victorious rebels thus founded the grand Orient of France. So a contemporary Mason is able to write, 'It is not excessive to say that the masonic revolution of 1773 was the prelude and the precursor of the Revolution of 1789'. What must be well observed is the secret action of the Brothers of the Temple Rite. It is they who are the real fomentors of revolution, the others are only docile agents."

In the events that helped create World War I we find Freemasonry prevalent. The three assassins of Archduke Ferdinand were all Freemasons. One assassin, Cabrinovic, when asked "Had the fact that you and they were Freemasons have an influence on your resolve?" answered yes. This same assassin said, "that the Freemasons had condemned the Archduke Franz Ferdinand to death more than a year before."

Masonry is Anti-Christian

The Judaic attitude towards Jesus Christ and Christianity is well known. The Jewish Talmud places curse after curse on Christ and His followers. However the Masonic attitude is not as well known. Like Judaism, Masonry claims to be a religion. Dr. Mackey states, "Masonry, then, is indeed a religious institution; and on this ground mainly, if not alone, should the religious Mason defend it." Another Masonic writer has said, "The meeting of a Masonic lodge is strictly a religious ceremony."

The fact that Judaic-Masonry is a religious institution is no reason for its condemnation. However, it is an anti-Christian institution therefore it is anti-Christ. Mackey put it simply when he said, "The religion of Freemasonry . . . is not Christianity."

Masonry like Judaism rejects Jesus Christ as Lord and God. The basic doctrine of Christianity is that Christ was God in the flesh. This belief is one that is totally rejected by the Jew. Freemasonry claims that "There is nothing in it to offend a Jew." If Freemasonry acknowledge Jesus Christ as Lord it would offend the Jew.

Freemasonry like Judaism claims to be superior to Christianity. Neither of them accept the basic fundamentals of the Christian faith and both of them have their roots in the "ancient mysteries" of the occult of Egypt and Babylon. Between Masonry, Judaism and two other branches of the priesthood cult the "mystery religions" of Nimrod are in virtual control of the spiritual lives of the majority of Americans. Masonry is one of the most dangerous because it transcends denominational lines whereas the other three are enclosed in strict denominational structures.

We have lightly touched on some of our objections to Freemasonry and its Judaic connections. Each area could have been expanded greatly but such an endeavor would have been impractical for an article such as this one.
